

UNIVERSITY OF GRONINGEN PRESS

225 YEARS ROYAL NATURAL SCIENCES SOCIETY

SCIENTIFIC CHALLENGES TODAY AND TOMORROW

EDITORIAL TEAM Lubbert Dijkhuizen | George Huitema | Ulco Kooystra | Lou de Leij
Petra Rudolf | Guus Termeer (coordination) | Ton Schoot Uiterkamp | Danara Vonk

This book is an inspiring tribute to the Society's enduring mission: stimulating curiosity, advancing knowledge, and connecting science and society—yesterday, today, and tomorrow.

University of Groningen Press

Dear Readers,

Scientific Challenges Today and Tomorrow has been published to mark the 225th anniversary of the Royal Natural Sciences Society in Groningen (KNG).

This jubilee book brings together chapters written by a selection of leading researchers from the University of Groningen's Faculty of Science & Engineering and from the University Medical Centre Groningen.

They reflect on scientific progress in the fields of Energy & Environment; Artificial Intelligence; Life & Health; Prediction, Prevention & Care; the Universe; Personalized Medicine; Advanced Materials; and Health, Ageing & Disease.

The book blends scientific advances with reflections on the Society's distinguished history and reveals how today's discoveries may help shape the future.
